

Lufthansa Group herewith awards

Daikin Air Conditioning Argentina S

as **CLIMATE SUPPORTER**

Daikin Air Conditioning Argentina S contributed to CO₂-saving measures through the use of **Sustainable Aviation Fuel (SAF)**, corresponding to the estimated flight-related **CO₂ emissions** from employee journeys on flights operated by the following Lufthansa Group Airlines:

Austrian Airlines, Brussels Airlines, Lufthansa and SWISS

Herewith, Daikin Air Conditioning Argentina S has helped to accelerate the progress towards more sustainable flying.

SAF contribution corresponding to a CO₂ amount of: 2193 kg

Frankfurt, July 13, 2026

This document confirms the procurement of SAF by the Lufthansa Group and its usage in their flight operations to reduce above stated amount of CO₂. Please note that this document does not serve as an externally verified CO₂ Emission Mitigation Certificate.
